### ALCOHOL TOBACCO AND FIREARMS

The ATF is a government law enforcement agency which strives to protect our communities from criminals, trafficking of firearms, illegal use of explosives, terrorism, and illegal use of alcohol and tobacco products. Yep all the vices that draw men to go out and shoot or blow something up. How many of you have seen the video, hold my beer, watch this! I digress.

I'm not sure how the three of these got bundled together in history but they should never be mixed in reality. In reality people should never have their hand on a firearm without a clear head. Also, a reality is there are people who do not care about the rule of law. That is why we have law enforcement; some have to be forced to abide by the law.

### THE LURE TO VICES

It is very hard to stay away from the politically charged environment when writing this. I have to keep reminding myself why I started Natural Right Firearms in the first place. I can't take credit for the term, responsibly armed citizen, but I want to see people who own and use firearms to use them responsibly. That means properly trained.

In one of my classes a while back we were talking about where a person is not allowed to conceal carry even with the enhanced carry permit. I told them it is simple, you can't carry anywhere the people who work there are armed, police, sheriff, or jail facilities. You're not allowed to carry in a courthouse while in session, and you can't carry in a whorehouse. Yep, that is what Mississippi law says. A place of nuisance is defined as any place upon which lewdness, assignation or prostitution is conducted, permitted, continued to exist or any other place upon which a controlled substance is unlawfully used, possessed, sold, or delivered.

When I shared this tidbit the all-women's basic handgun class, I was teaching at the time erupted in a plethora of laughter and shock. They asked why you would be there in the first place. I had to agree. The point is a law-abiding citizen is not going to go out looking for trouble. The key to gun ownership is to be prepared should trouble find you while minding your business. There have been ample examples where lawless activities have found their way to law abiding citizens lately. For this reason, we have seen a substantial uptick in those who are picking up arms for the first time.

### INSURANCE

When Jesus was walking around with his disciples one of the most despised people of His time was tax collectors. In our time I would have to put insurance salesmen in that category. If asked when I was growing up if being an insurance agent was a career choice, I would put it just below portable toilet maintenance. However, in my present side career I find myself peddling insurance. Self defense insurance. Most insurance is

being sold with the hope that it will never be needed. What I am asking you to look at is not simply a revenue stream to protect you from potential bankruptcy should you get involved in a self-defense shooting but a value-added resource for your responsibly armed lifestyle.

## RESOURCES

As I teach in my classes the USCCA is so much more than just a self defense insurance company. Their membership offers the necessary resources for training that are second to none. Going to a class, getting a certificate to apply for an enhanced carry endorsement does not a responsibly armed citizen make. It requires training to build those skills. Training takes many forms, some is in the classroom, some is on the range, and some can be through study guides or videos on different subjects. These other resources are what separates the USCCA from just simple self defense insurance.

## ARM YOURSELF WITH KNOWLEDGE, TRAINING AND LEGAL PROTECTION

As a USCCA Member, you'll get:

1. **Industry-Leading Knowledge:** Access to thousands of training videos and articles that will improve your carry confidence and help you become a prepared protector.
2. **Top-Notch Training:** Connection to our network of over 3,000 certified trainers nationwide so you can work with certified professionals, no matter where you are.
3. **Expert Legal Protection:** Up to \$2,250,000 in self-defense protection benefits, a 24/7/365 award-winning Critical Response Team and a nationwide legal network.
4. **Protection for Use of ALL Legal Weapons:** Guns, knives, and hand-to-hand combat ... we've got your back. Never second-guess how you will defend your family again.
5. **Concealed Carry Magazine:** Get practical training, true stories, unbiased product reviews and more delivered straight to your door 8 times per year. Plus, access to a digital archive of past issues.
6. **Free Expo Admission:** Join thousands of like-minded individuals at our annual Concealed Carry Expo and experience 3 days of guns, gear, and expert training you can trust.
7. **Member-Only Offers:** Enjoy exclusive training videos, attorney webinars and discounts from us and our trusted industry partners.
